WORK EXPERIENCE

Full Stack Developer Intern
Kodnest Technologies

Jul 2024-Present
Banglore , IN

- Developed **full-stack web** applications using **Java (Spring Boot)** and Python (Django), leveraging **JavaScript** and **SQL** for **dynamic functionality**.
- Built and deployed two projects, leading end-to-end development and integrating modern technologies for seamless performance.

TECHNICAL SKILLS

Front End: React (Vite), HTML, CSS, JavaScript, Tailwind CSS.

Back End: Java (Spring Boot), Python (Django), Node.js (Express.js), RESTful APIs.

Database: MySQL, MongoDB.

Frameworks & Tools: Spring Boot, Django, Express.js, Tailwind CSS.

EDUCATION

B-Tech in CSE | Malla Reddy College of Engineering for Women | **CGPA: 8.24** | Aug 2020-July 2024

PROJECTS

Meal Mate Project

Aug 2024 - Sep 2024

- Developed Meal Mate, a full-stack food delivery web application with role-based access for customers and admins.
- Implemented customer-side ordering, payment processing via Razorpay, and an admin dashboard for product management with full CRUD operations.

Tools used: React, Tailwind CSS, Django (Python), SQLite, Razorpay API.

Sales Savvy Project

Jan 2025 - Feb 2025

- Developed Sales Savvy, a full-stack e-commerce solution design and medium businesses to simplify online sales and enhance customer interactions.
- Enabled admin panel for managing products, users, and orders, along with a customer interface for browsing, shopping, and order tracking. Integrated secure payments via Razorpay.

Tools used: React (Vite), Tailwind CSS, Spring Boot, Spring Security, MySQL, Razorpay API, Docker, JWT Authentication.

ACHEIVEMENTS

- Awarded with **SILVER** medal in **DEVELOPING PERSONALITY** and **SOFT SKILLS** through NPTEL.
- Participated and **Shortlisted** in Internal **Hackathon** at MREW.
